COMP 2233 Data Stuctures Course Content List

Assoc.Prof.Dr. Ömer ÇETİN

(Last update: 29.09.2026)

1. Introduction
2. The Concept of Algorithm and the Software Development Process
3. Abstract Data Types, Arrays, and Vectors
4. Multidimensional Arrays
5. Pointers and Linked Lists
6. Bidirectional and Cyclic Linked Lists
7. Stacks
8. Queues
9. Trees and Traversal Methods
10. Binary Search Trees and Balanced Trees
11. Graphs and Graph Algorithms
12. Hash Tables
13. Search and Sort Algorithms
14. Project Presantations
